EXPERIENCE

06.2023 – Present

UX Designer, Google

Mountain View, CA

Designing customizations and smart home controllers for the Google Home App.

05.2022 – 08.2022

UX Design Intern, Google

Mountain View, CA

Designed a new feature for the Google Home app to deliver critical user journeys. Collaborated closely with a product manager, two engineers and a UX researcher. Handed off final design specs and key artifacts after presenting the design to the design director and leadership team.

05.2021 – 08.2021

Product Design Intern, Schoolhouse.world

Remote

Initiated redesigns, prototyping, and testing of the web app for thousands of users. Designed a new user dashboard and revamped multiple web pages for launch. Executed the UX/UI of a new company blog site and visual design for blog and social media posts.

06.2020 – 08.2020

Visual Design Intern, Common Sense Media

Remote

Assisted the art director and graphic designer to create branded images for emails, blogs, and social channels for Wide Open School back-to-school materials, Dig Citizenship 2.0, Common Sense Selection Seal marketing, and webinar series. Conducted UI research for Common Sense brand kit.

05.2020

UI/UX Designer, ArtCenter Hackathon

Remote

Researched, ideated, and designed a solution with four students to facilitate collaboration and workplace culture in a remote work setting. The solution earned first place out of ten teams.

06.2019 – 09.2019

UX Design Apprentice, BRIDGEGOOD

Oakland, CA

Conceptualized and designed four web pages and worked cross-functionally with fellow apprentices, product lead, and web developer. Designed branded presentation decks, email signatures, business cards, and team portraits.
